**Subject: Our Recommendations for Representation on the DAC Committee**

The California Desert District Mining Coalition (CDDMC) is comprised of a combination of over 17,000 miners and papered mines in the California Desert District. The CDDMC was formed only to try and to get information out to the public and to the public officials to show them what was happening behind their backs without their knowledge in some cases. The CDDMC has worked diligently to educate the public without any representation on the DAC committee of the actual miners and minerals category that make less than a billion dollars. Companies that made more than a billion dollars was represented very well for the last 3 years, but that was not the majority of mines and miners. This next 3 years we want real representation for the miner, not just the billion dollar companies.

The next paragraph is only mentioned to show the importance of Mr. Jensen representing the miners. According to the 1872 Mining Law and the Congressional Legal and Historical Analysis (sitting in the Library of Congress) interpreted by a panel of many lawyers, judges, Senators, Congressman and representation by the Sierra Club; Miners and Minerals should be a category and Miners should be a formative and expert Stakeholder in all DRECP, ACEC, NLCS, BLM and any other land management control decisions. Why you ask? Because according to this book that we now have in our possession from the Library of Congress, the 1872 Mining Law carries more weight than we ever new or imagined. The 1872 Mining Law can help everyone that wants to save the manipulative, unnecessary take over and conservation of our public lands.

Mr. Jensen will represent the community better than any other past non-renewable representative as he does not represent just billion dollar mining. Mr. Jensen represents all categories of miners, mining and minerals from Department of Defense to strategic rare earths, metals and minerals and has worked closely with the mines, miners and the CDDMC for years now, stepping up to be recognized as such, on record, and with his past congressional candidacy back ground, has taken our complaints all the way to Congress. We have actually received help and currently are working with quite a few Congressman on these California issue's, in a very expedient manner, to stop these very manipulative land grabs by many sneaky organizational opinions. The Congressmen now have been apprised of the legally interpretation of the mining law of 1872 and are working for the miner through Mr. Jensen.

As congressionally and federally recognized stakeholders in California and throughout the United States;

**THE CDDMC BACKS AND VOTES FOR  
 MR. BILL JENSEN TO REPRESENT US ON THE DAC COMMITTEE  
 FIRST CHOICE IN (MINING) NON-RENEWABLES.  
 SECOND CHOICE IN PUBLIC AT LARGE.**

***THE CDDMC DOES NOT RECOGNIZE NATHAN FRANCIS FROM RIO TINTO,  
 NOR GET OUR VOTE TO REPRESENT US, THE MINING COMMUNITY, ON THE DAC COMMITTEE***

Sincerely,  
 The California Desert District Mining Coalition
